TENNESSEE. - Whatever doubt might have existed for a short period as to the effect of the Presidential nominations on the two great political parties in Tenness see, the evidences are now pouring in thick and fast that that gallant State will give to the Whig candidates an overwhel-ming support in the election of November next. In justification of this opinion, we copy the following extract of a recent letter from Shelbyville:

" Scott will carry this State by a sweepand far greater enthusiasm, in our party in this State than have ever before been known in a Presidential canvass. Our nicates the interesting fact that in his electors for the State, Henry and Haskell, own town sixty Democrats have anare doing brilliant service. A. V. The New York Express says: "We have seen a letter from a prominent American gentleman in London to his correspondent here, stating that he has just had an interview with the American Minister, who assured him that the British Ministry has sent instructions to the colonies that will at once silence and allay apprehensions of difficulty in relation to the fishery question."

Well Done!-The Enquirer drags down, with as much grace as the case will admit of, the Ohio fabrication about Gen. Scott's cutting off his hand, &c. But it still flies at its mast head the thrilling dialogue' all tattered and torn. That will have to follow in the foot-steps of its fellow. That's the luck of all who oppose "Old Chip." He commenced his career of victories by pulling down the British flag at Fort Erie, and all hostile flags since that have struck to him! disavowal comes forward the better, as the election is only about sixty days off. We have always believed Mr. Webster to be a great man, in the true sense of the term, and therefore we have no idea that he is capable of doing a little thing. We had infinitely rather, to-morrow, be Daniel Webster, as he is, than President of the United States; and it seems almost marvellous how such a man can feel a moment's ambition to have his name flung into the dirty, miserable arena of a presidential canvass, to be covered over with the filth and slime of party aspersion and demagoguism. It there is a man in this Presidency, that man is Daniel Webster. declaring Such honors, in comparison with those which are wreathed in unfading brightness around his brow, are absolutely insignificant.
